

County Costs In Sharp Rise For Past Few Years

Increase Blamed On Relief As Costs Per Capita Show Rise

The per capita cost of Nevada county government went up 62 per cent between 1935-36 and 1940-41, a study of expenditures in California made public this week by the California Taxpayers' association, shows.

In 1935-36 the county spent \$19.16 for each man, woman and child in the area. In 1936-37, county expenditures averaged \$24.19 per capita. In 1937-38 they totalled \$30.19; in 1938-39 they amounted to \$31.42; in 1939-40 they were \$29.10 and for 1940-41, the last year for which complete data are available, the county spent \$31.05 per capita.

Average expenditures by all the counties for all purposes amounted to \$18.70 in 1935-36 and \$29.23 in 1940-41. Much of the increase has been due to the increase in expenditures for relief, the association pointed out.

Keetch Family Will Leave For Susanville Soon

Rev. and Mrs. G. J. E. Keetch and family plan to leave next week for Susanville where Rev. Keetch has secured the pastorate of the Baptist Church. The family have been here for four years and have made scores of friends who will deeply regret their departure, although they will be pleased that the local pastor is obtaining an advancement in his calling. Mrs. Keetch has been most active in Red Cross and other civic activities.

No successor for Rev. Keetch has been named although it was assured the pulpit will not long be vacant. Rev. Keetch will preach this Sunday but next Sunday will occupy the pulpit in Susanville.

Rumor persists that roads around Lake Tahoe may not be kept open this winter because of a shortage of men and snow removal equipment. We sincerely hope that the stories never get beyond the rumor stage. Truckee and Lake Tahoe residents stand equal in their protest of such action, the results of which are too apparent. Millions of dollars worth of property, including homes and businesses surround the lake and hundreds of people owning or employed to care for these establishments would be completely isolated or forced to move and leave their homes if the roads are not kept open. Mail routes would cease to exist. Essential commodities could not be delivered and certain hardship would be inflicted. The matter is one which should be taken seriously and one which must be carefully considered by the highway department.

Two companions of an inebriated Mexican this week were accused of taking the unfortunate drunk back in an alley to rob him of a sum of money. That's bad, but in our estimation they were gentlemen compared with one of our local residents who persists in begging from soldiers who occasionally frequent Truckee. This fellow is unfit for military duty himself but evidently believes the army owes him his liquor so attempts to collect from the boys who are in a fair way to die that he may continue to live, drink and mooch.

This week we are taking the war a little more seriously. Our invaluable associate, the author and originator of "My Place in the Sun" and the mainstay of our composing room and a big quarter of the Barrett family. Doug, was called into the service of his country. He will be missed by many but not nearly so much as by the remaining three-quarters of his immediate clan. We can only hope that he makes half as good a soldier as he does a son and brother and we wish him God's speed.

New Member Joins At Rotary Club Meeting

Tom Buell, local state highway superintendent, was taken in as a new member of the Truckee-Tahoe Rotary club Monday night. Lloyd Greene presided at the meeting and Barney Phipps was program chairman.

Martin Reveals He Is Candidate For Treasurer

Joseph Martin, Nevada City business man and candidate for Nevada County treasurer and tax collector, visited Truckee and other centers in the eastern end of the county Tuesday to acquaint himself with the voters. It was Martin's first visit to Truckee during the campaign and he expressed himself as pleased with his reception.

Martin came to Nevada County six years ago to make his home and establish the hotel and cigar store business. Prior to coming here he had for 14 years been agent and superintendent of the American Toll Bridge Company and was directly in charge of all operations and moneys for this huge concern. Annually he handled approximately \$2,000,000. Before his association with the bridge company he was seven years with the Oakland police department.

"I believe sincerely that my experience fits me for the office which I seek and I ask the support of the voters purely on the basis of efficient administration of the duties of treasurer and tax collector," Martin declared.

DRUNKS ARRESTED

During the past week Deputy Sheriff Tom Dolley and Nightwatchman Frank Titus have arrested no less than a dozen itinerant drunks all of whom were placed in jail and then given suspended sentences to leave town immediately.

Charles Ingram, county welfare agent from Nevada City was a business visitor in Truckee this week.

This District Is Not Effected In Closure Orders

State Order Does Not Put Restrictions On Other Game or Fishing

The recent order closing certain areas in California to deer hunters does not effect districts where the season does not open until September 15, it has been revealed following a meeting of the fish and game commission in San Francisco.

The season in this district does not open until September 15 and the closing order therefore has no effect upon the area.

The closing order which effects many districts in the so-called combat area of California does not put a ban on fishing or hunting of game aside from deer.

The closing order was issued by Governor Culbert Olson Tuesday and includes six northern California fish and game districts. Southern areas were previously closed.

MY PLACE
IN THE SUN

by DOUG BARKETT

Well, friends, this time is aurevoir fo' sho'. I'm leaving before this will appear in print but I want to leave with you my sincerest appreciation for everything you all have done for me all...for your kind expressions of regret at seeing me go. It gives a man a feeling of great satisfaction to know that he has friends who will miss. It gives him something to fight for—the faith of friends. If My Place has brought any enjoyment to you in its course, I amply repaid for effort expended. If it has in anyway made this a better town, I'm rewarded beyond my deserts....Especially thank I send to Melva and Art Leitch for their dinner in my behalf (corks and trimmings); to Mr. and Mrs. Glenn Sweeney for their thoughtful card of best wishes; to "Swanee" for them kind words, and to my parents for everything I am or have or hope to be or have.

Showing an expert's knowledge of practical politics, Mayor Tom Monk of Sacramento, sent a bill to Assemblyman Allen G. Thurman of Colfax addressed to "Hon. Allen G. Thurman, State Prison, Folsom, Calif." Sez "Scoop": "Thank to Warden Plummer or his clerk for knowing this writer is still at large and for sending the bill on its way for the proper attention."

STREET SEENS: Gert V. Clark, Democrat candidate for congress, campaigning in Truckee with hubby, Baylies C., chauffeur...Rudolph Rex Henderson, Republican candidate against Mrs. Clark, et al., with his mouth full of cigar calling on Truckee voters....Chas. McCloskey and a comely chick getting tanked up at Bob Bowers' service station....Dolly Petroni and military escort coming down from Liz Gates' party....Ida Stewart sporting a new brooch, the emblem of Abe Betrollozzi's ack-ack outfit....Prof. Gus Hofmann always seems to have a load of groceries....Prof. George Hinkle always manages to look like an Esquire fashion plate....a couple of flat-brush da Vincis putting a new coat of paint on Art Lawson's service station....Essie and

Bert Weeden, Jr., boarding the bus to visit Coastguarder Keith Weeden just out of quarantine.

We went over to Club Fortune in Reno to celebrate by departure for service. As a rule, I wouldn't even mention it, but this time I make exception. The entire floor show was as good as average but one item on it stood out in my mind. She was a little blonde item named Betty Black. Somebody somewhere is overlooking a good bet by not getting her into momepitchers. Honestly, I'm not exaggerating when I say I've never seen the beat in flesh or flicker. While she's a good looking chick, she's got something else. It's personality plus. It's deep down inside and peeks out through two of the most vital and vibrant eyes I've seen. If I were a prophet, I'd probably predict a great future for her, but being just me, I'll say "Some babe!" followed by a low whistle.

So much for that and now reveille is sounding for Pvt. Walter D. Barrett, 39392971, so it's good by, chums. I'll be seeing you, boys.

Total mineral production in California in 1941 was valued at \$374,327,409, an increase of \$31,501,592 over the 1940 total.

EDITORIAL

THE FLYING GENERATION

Sixty-eight per cent of boys between the ages of eight and seventeen would like to take a course in school to fit them to become army or navy fliers when old enough. This measure of the interest of boys in flying was made by a nation-wide poll of junior opinion conducted by Parent's Institute, Inc. The great number of boys interested in flying right now is undoubtedly stimulated by the war, but it also makes it clear that, war or no war, aviation is the Number 1 interest of the coming generation. If 68 per cent of the boys now in school continue their determination to be fliers, aviation will quickly become the most competitive occupation there has ever been. It is natural that aviation has an outstanding appeal for young boys, but perhaps some parents should start interesting their children in the boyhood ambition of the past. Otherwise, who are we going to have to ride the fire engines, blow the police whistles and yank out our appendixes in the future?

day, August 15, at 8 and 10:30 p.m., according to Rev. William Daly of Truckee who has charge of the local parish. It is the Feast of the Assumption, a holiday of obligation for Catholics, and confessions will be heard before the 8 o'clock Mass.

Bishop Noel Porter of the Tahoe Episcopal Chapel on Sunday officiated at a special dedicatory service commemorating the recent erection of the new 30-foot flag pole on the church grounds. Immediately following the 11 o'clock services, a group of approximately 200 persons gathered to see the flag, a gift of Mrs. H. G. Talladay of San Francisco, flung to the Tahoe breezes. Rev. Porter voiced a prayer of blessing and the entire congregation joined in singing The Star Spangled Banner.

Mrs. Annie Soll made a hurried trip to Sacramento upon learning of the sudden illness of her daughter Mrs. Louis Gerkin who suffered with a severe sore throat, chills and fever. She left on Wednesday night and returned on Thursday when a decided improvement was shown in the patient's condition.

Pete Pereilli, Tavern golf pro, announces a change has been made in the local links since the sale of that portion of property adjoining the Henry's Garage to A. M. Henry. Because of the loss of this plot, a new eighth hole has been charted, 50 yards shorter than the old one and easier to negotiate.

Making their annual horseback trek into the Tahoe back country recently were Mrs. Henry Soll, her daughters, Mary Jane and Alice, and Joyce Palmer. The trip occupied the entire day and took them to Five Lakes, Grouse Lake and Stony Ridge. The horses tarried over a crust of two feet of snow in places, with the entire upper country now abloom with wild heather. Alice Soll, brought in her limit of trout.

Another horseback party on Wednesday left from Meeks Bay and visited the Desolation Valley area. They took sleeping bags and returned Thursday, spending the night in the open. Many caught the limit of trout. Among those making the trip were Arnold Luneman, Jimmie Tester, Joyce Palmer and Alice Soll.

MEEKS BAY, Aug. 13— The Meeks Bay Red Cross bazaar held at the H and W Club house on August 5 was a huge success, according to Mrs. N. J. Lindenfeld, chairman. More than 200 people attended and the affair netted \$227.50 for the El Dorado county Red Cross chapter.

"I wish to thank all who made the occasion such an outstanding success," Mrs. Lindenfeld stated.

The bazaar was sponsored by the residents, visitors and clubs of the Lake Tahoe community.

Tahoe Poet's Verse Printed In Aircraft Publication

In the July issue of Eyes Aloft, published for the Aircraft Warning Service, which maintains the ground observation posts in every community, a Tahoe resident is given recognition for his poetic contribution in the Poet's Corner. On Lookout Hill by Court Bates is the poem, which we reprint:

The night is still on lookout hill
—It's quarter past eleven
In darkness deep our watch we keep
With eyes upturned to Heaven;
Alert for vanguards of the foe—
Whose plans we'll promptly veto
Should there appear w/in our sphere
The planes of Hirohito.

The Richard Shainwalds and family, constant summer residents over a period of years, have stolen away from their San Francisco home to enjoy a few short weeks at least at their lovely lakeshore home in the Sunnyside tract. The press of business has doubtless curtailed their usually extensive summer vacation stay.

Mr. and Mrs. Arthur Mejia and baby of San Francisco are spending a brief vacation at the Kelham home.

In answer to an invitation by Warden T. M. Artzen of Tahoe Public Camp, more than 65 persons gathered on Saturday night to enjoy the bonfire, community singing, games, stories, jokes, and refreshments, served the visitors. Charles Buchholz and Dennis Gordon provided harmonica music for the singers. Following the program, guests were provided with long wire prongs upon which each roasted his hot dog over the coals, buns and hot coffee completing the eats. Other bonfires will be held from time to time with the general public cordially invited.

On Friday afternoon Captain and Mrs. John Kvistberg returned to their Tahoe Park home following a visit in the bay region. Captain underwent his tonsillectomy without unfavorable reactions and is now enjoying the pleasant vacation weather.

Mr. and Mrs. Grandon Russell of Williams are spending several weeks at Tahoe Park.

Rev. and Mrs. Cedric Porter and two sons of Nevada City are spending the remainder of August in the Wright cottage in the Cedar Flat district. He is the son of Rt. Rev. Bishop and Mrs. Noel Porter of Lake Tahoe and Sacramento.

The R. A. McLarens are spending some time at the Poett home in Sunnyside District.

August Is Popular Birth Month In Pomin Clan

TAHOE PARK, Aug. 13— Mr. and Mrs. E. H. Pomin of Tahoe Park last week enjoyed a visit from their son, Harry, who was accompanied by his wife and children, Betsy and Harry, Jr., and Miss Barbara Jean Goodwin, all residents of San Francisco.

During their stay the family decided to celebrate the four birthdays in the Pomin clan which occur in August. Little Beverly Gay Pomin became six on August 9, E. H. Pomin had a natal day on the 11th. Mrs. Stanley Pomin of Pope's estate will celebrate hers on August 14 and little Barbara Althea Woolley turning 12 in August. The observance was packed into one big celebration of Sunday with two huge birthday cakes and a gorgeous dinner was enjoyed by the family. Other celebrants included Mr. and Mrs. Stanley Pomin and children, Mr. and Mrs. H. H. Woolley and children of Reno and Mrs. Emma Haugh of Venice who is summering with the E. H. Pomin.

C. T. Dawe, who has served as superintendent of instruction for Placer county schools, has accepted a position as principal of the junior high school at Monrovia.

Salvage Drive At Lake Is Doing Nicely, Reports N. R. Mayfield, Chairman

TAHOE CITY, Aug. 13—Norman R. Mayfield, one of the leaders in Tahoe's scrap metal drive, announces this week that the drive appears to be gaining impetus with each passing day. Down at the salvage depot in the old Southern Pacific freight yards near his shop, the pile rises higher and higher and Ernie Pomin of Homewood reports some three or four tons on hand already, with four or five tons on hand at Brockway on Monday. The old rock crusher at Tahoe Vista was added to the donations on hand and two more truck loads at least are in sight.

Mayfield will send a truck for any sizeable amount of scrap gathered for donation. Joe White of the Kluah Park district has offered to fill a trailer with metal by scouring the outlying districts and collecting from residents in his area.

Mayfield expressed the belief that Tahoe will have no trouble in securing a carload, but believed two 25-ton truck and trailer loads would be more desirable, the equivalent being the same weight as a car load which ranges up to 50 tons. The date of the drive's conclusion has been extended from August 11 to an indefinite period. Housewives and home owners are urged to bring down even small amounts to their nearest salvage station as every pound counts.

A Wartime Request

When it is necessary to telephone
please be brief

Use of the telephone in the war effort of our nation has become so great that long distance facilities are now loaded to capacity—or near it—in many areas, despite record-breaking enlargement of the system in the past two years.

The situation in the local central office areas, although less critical, is fast becoming serious in many communities as the load of calling associated with the present emergency continues to increase.

The peak of the war effort is still ahead—military needs for telephone service are bound to increase. Copper and other materials are practically unavailable for telephone expansion. They must now go for war weapons instead of telephone lines.

Present telephone facilities must be made to serve throughout the war emergency as effectively as possible. To this end, we ask every telephone user to avoid unnecessary telephone calls and to be brief when calling. This will help to relieve both present and future congestion on heavily burdened telephone lines, and we hope will meet the situation with a minimum of inconvenience to you.

We deeply appreciate your most helpful cooperation. You are helping to speed Victory—you are helping us to help you.

Mrs. Gertrude V. Clark Seeks Congress Post

Mrs. Gertrude V. Clark of Sutter Creek, candidate for the Democratic nomination for congress from the second district, today outlined her reasons for seeking the seat now held by Harry L. Englebright, a Republican, of Nevada City.

Mrs. Clark was born in Sutter Creek. She is the wife of Baylies C. Clark, consulting engineer. Three generations of Mrs. Clark's family have been actively identified with mining on the Mother Lode and their home here has been occupied by

three generations of the family.

She has been engaged in public service principally in education and child welfare for 25 years. At one time she was president of the California Congress of Parents and Teachers.

Mrs. Clark has a married daughter living in Orinda, Calif. Her only son, Liet. Baylies V. Clark, United States Navy, was lost early in the war somewhere in the Atlantic.

Four years ago Mrs. Clark ran for lieutenant governor, but was eliminated in the primary. Since then, she reports, she has acted as vice chairman, with Francis Carr of Redding on the Democratic State Central Committee, second congressional district. She also is chairman of the Amador County Democratic Central Committee.

In her statement, Mrs. Clark said: This is the most important congressional election in the history of this country. Representatives must be chosen whose first interest is to win the war, regardless of political, sectional or special interest, and who will recognize there can be no compromise with Fascism, where a democratic solution of the problem we face is the rightful heritage of the American people.

Representatives must be chosen who understand that the United States will have a responsibility in shaping an interdependent world when the war is over, which means that we must share in building a free and stable order, which eventually will include everyone, regardless of race, religion or political persuasion.

Having frequently traveled over the territory of the second congressional district, for a period of several years, I am aware of its vastness of natural resources. I am also conscious of its store of rich human resources, now serving in the army and navy of our country. I know

BEER INDUSTRY WORKERS BUY BONDS

Rising at the rate of well over a \$1,000,000 monthly, a swelling tide of war bond purchases by the country's 55,000 brewing company employees reached a total of \$13,390,429 by July 1st. The total has just been announced by Karl F. Schuster, president of the Acme Breweries, San Francisco and Los Angeles, who is chairman of District No. 16 of the industry's War Saving Committee. His district, embracing California and Nevada, has contributed \$498,071

of the total. "We feel," said Schuster, "it can safely be said, in view of this magnificent record, that brewing industry workers, for the most part, are exceeding the government's request for war bond subscriptions equalling at least 10 per cent of their wages and salaries. On a per capita basis, \$13,390,429 represents an average contribution of \$243 per worker."

"It would not surprise me at all," stated Schuster, "that the record of nearly 13 1/2 millions in war bond subscriptions thus far credited to the wage earning and salaried personnel of 344 breweries, leads the entire field of American industry with respect to the average amount of bonds acquired by the individual worker."

Schuster said there is good reason to be proud of the substantial way in which the men and women employees are responding to the government's call for support in its bond-selling program. He pointed out that there are still over 150 breweries which have not reported their employees' bond purchases; that the heads of these companies should see to it that the contributions of their workers are listed as promptly as possible, and that they win their honor roll minute man flags and keep 'em flying.

The War Saving Committee's records show that up to June 30, all the employees of 173 brewing companies (100 o/o) were listed as buying war bonds through weekly payroll deductions. From 90 to 99 per cent of the employees of 50 other breweries have "signed up" and there are 121 additional breweries in which up to 90 per cent of the employees are subscribing for bonds regularly.

"It is a source of genuine satisfaction to know," said Schuster, "that the money we are investing so wisely in the best government securities in the world, is beginning to show results in the war against the enemy. Those 13 1/2 millions we have already turned over to the nation's treasury probably bought 38 four-engine bombing planes, or 200 medium tanks or 134 fighter planes."

"Let's keep on buying war bonds to the very limit of our financial ability. With the heaviest burden of the war resting on the shoulders of the United States, it is our bounden duty to lend, and lend until victory is won. To buy bonds is nothing compared to the great sacrifices of life and blood being made daily on the far-flung battlefronts, by our loyal American fighting men. The least we can do is to back them up with our dollars, to insure their getting the necessary food and munitions of war."

Mrs. Gertrude V. Clark

the mothers of sons who will give them gladly if in their giving it means to have a world free from slavery and oppression.

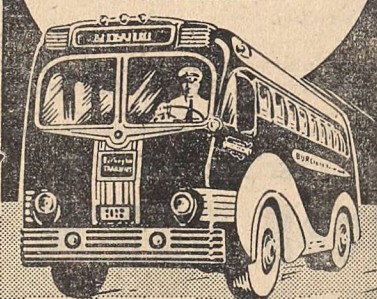

But, to be sure of this, this year the women have a grave responsibility. Our men at the front have a right to expect their mothers, wives, sisters and sweethearts at home, to vote for the kind of representation in Washington who will not sabotage the peace plans, that are to come, and make it necessary for another World War to be fought again, by the next generation of young people.

I am running only on the Democratic ticket. It seems inconsistent for me to cross file after circulating an initiative petition for anticross-filing.

As a candidate for a member of congress, I pledge myself to support the president and to represent the people honestly and fearlessly. My experience and devotion to the democratic way of life prompts me to believe that I am prepared and qualified to serve as a representative of the second congressional district in the congress of the United States.

to save precious rubber for the war effort, the director of Defense Transportation issued a general order to service industries which says:

1.—We cannot make more than one stop at each customer's residence in any one day. This means to pick up your laundry, your bundle must be ready and available when we call. To deliver your laundry, we must make collections at the time of delivery. If these rules are not complied with, we must postpone delivery or pickup until the next day.
2.—We cannot give any special delivery service. This means any requests, other than our regular delivery service, cannot be granted.
3.—We must reduce our truck mileage 25 per cent each month below what it was the same month last year. This means we must re-schedule our delivery

This is a government order, we must comply with it

The inconvenience caused by this order will mean a sacrifice to both of us. But we feel that it is a small sacrifice, because it will enable us continue to serve you and at the same time help our nation in its effort to win the war.

Bomb 'em with JUNK

Let's blast Japan—and Germany—and Italy—with the chain lightning of destruction that can be built from the scrap in our cellars, attics and garages, on our farms and in our places of business.

Scrap iron and steel, other metals, rubber and waste materials. It will all be used to make tanks, ships, planes and the fighting weapons our boys must have. It is needed at once.

Sell it to a Junk dealer—give it to a charity or collection agency—take it yourself to the nearest collection point—or consult the Local Salvage Committee... If you live on a farm, and have found no means of disposing of your Junk, get in touch with the County War Board or your farm implement dealer.
